TITLE	Report of the Distribution of Financial Assistance to Students in Florida's Community Colleges 1977-78.
INSTITUTION	Florida State Dept. of Education, Tallahassee. Div. of Community Colleges.
PUB DATE	Mar 79
NOTE	23p.
EDRS PRICE	MF01/PC01 Plus Postage.
DESCRIPTORS	Black Students; Caucasian Students; Community Colleges; Enrollment Influences; *Ethnic Groups; Females; *Junior Colleges; Males; Scholarship Loans; *Scholarships; *Student Financial Aid; *Tuition Grants; Work Study Programs
IDENTIFIERS	Basic Education Opportunity Grants; *Florida

ABSTRACT

The distribution of financial aid funds to students attending Florida community colleges is summarized in data tables outlining the following: (1) financial assistance to students, 1977-78, by number of awards, dollars awarded, and average amount per award for specific categories; (2) financial aid by race/ethnic group; (3) comparison of enrollment to financial aid distribution; (4) financial aid by sex; (5) assistance by college and major aid group; and (6) trends in the distribution of total financial assistance, 1974-1975 through 1977-1978. Findings of the study include the following: the number of awards (89,912) exceeded the unduplicated recipients (66,306) indicating that a large number of students received more than one award; 70% of the aid dollars were for "Grants" and 14% for "Loans"; Blacks received 36% of all awards and 41% of all dollars; 39% of all "Grants" went to Blacks and 83% of all "Scholarships" to Whites; Blacks made up 14% of the college enrollment, but 36% of all aid recipients were Blacks, while Whites made up 78% of the college enrollment and 53% of all aid recipients were Whites; 57% of the total recipients were females and they received 64% of all aid dollars; and in all aid categories except "Loans," dollar amounts increased, as did average amounts per recipient. The total dollar amount has increased over the years with the greatest increases in the "Grants" category. (Author/MB)

Report of the Distribution of Financial Assistance to Students in Florida's Community Colleges

Introduction

The purpose of this report is to provide summary information which accurately reflects the distribution of financial aid funds to students attending Florida community colleges.

The information presented herein was obtained from each Florida community college on the Office for Civil Rights (OCR) report form entitled "Financial Assistance to Students in Institutions of Higher Education", (OCR 4000B3). This is a form showing the financial aid awarded to the students through each college during the 1977-78 school year. The detailed instructions and definitions are presented following the tables displaying the summary information. The reader should review these to obtain a better understanding of the data categories reported.

If more detailed information is needed it can be obtained upon request from the Division of Community Colleges, Bureau of Research and Information Systems.

Discussion of Tables Presented

Table 1 - Summary of Financial Assistance to Students in Florida's Community Colleges, 1977-78. This table shows the number of awards, the total dollars awarded, and the average amount per award for each specific award type and major category. It also shows the number of "unduplicated recipients"; i.e., the number of individuals receiving aid. The following are specific points of interest observed from the table:

- The number of awards (89,912) exceeded the unduplicated recipients (66,306) by 23,606. The ratio of awards to recipients was approximately 4 to 3. This means that a large number of students are receiving more than one award.
- 70% of the aid dollars were for "Grants".
- 81% of the "Grant" dollars were for "BEOG".
- Approximately $25.7 million (85%) of the "Grant" dollars were from Federal programs.
- Only 14% of all student aid was for "Loans" which require repayment.
- Only 14% of the aid dollars were used for "Student employment.

Table 2 - Summary of Financial Aid to Students by Race/Ethnic Group. This table shows the distribution of financial assistance to the five major race/ethnic groups. The following specific points were noted:

- Blacks received 37% of all awards whereas this group received 41% of the dollars.
- 39% of all "Grants" went to Blacks whereas they received 46% of the "Grant" dollars.
- The amount per award varied little among all categories and races.
- 83% of all "Scholarships" and 81% of those dollars went to Whites.

Table 3 - Summary of Financial Aid to Students by Race/Ethnic Group. This table is the same as Table 2 with the exception that the percents are for the columns rather than rows.

- 80% of the total awards to Blacks were in the form of "Grants". This group also received 79% of the total dollars.
- 71% of the total awards to Whites were in the form of "Grants" while 60% of the dollars to Whites went for "Grants".

Table 4 - Comparison of Enrollment to Financial Aid Distribution. This table shows the relationship between the Fall of 1977 enrollment and the distribution of financial assistance by race/ethnic group for Fiscal Year 1977-78. The Fall headcount is used simply as an indicator of the percent of each group attending community colleges. In other words, to make this comparison one has to assume that these percents were relatively consistent over the year.

- Blacks made up 14% of the college enrollment, but 36% of all aid recipients were Blacks and they received 41% of all aid dollars.
- Whites made up 78% of the college enrollment and 53% of all aid recipients were Whites receiving 45% of all aid dollars.

Table 5 - Summary of Financial Aid to Students by Sex. This report is designed to show the distribution of financial assistance by sex for the major aid groups.

- 57% of the total recipients were females and they received 64% of all aid dollars. Percents of male and female were almost equal in the Fall enrollment.
- Females outnumber males in every aid category.

Tables 6, 7, 8, 9, and 10 - Summary of Financial Assistance by College and Major Aid Group. These tables show the number of aid recipients, total dollars distributed, and average amount per recipient for each college and each major aid group. The annual unduplicated headcount is provided as an indicator of the size of each college.

Table 11 - Trends in the Distribution of Total Student Financial Assistance in Florida's Community Colleges, 1974-75 through 1977-78. The table shows increases in dollar amounts in all categories except "Loans" in 1976-77 and "Scholarships" in 1977-78. Percent changes in the number of awards, number of unduplicated recipients, and average amounts per award are erratic. The average amounts per recipient increased steadily until 1977-78 indicating a possible attempt to serve more students with the funds available.

Table 12 - Trends in the Distribution of Total Student Financial Assistance in Florida's Community Colleges by Category, 1974-75 through 1977-78. The table displays the dollar amount awarded in each category for a four-year period. The percent changes in 1975-76 are often extreme. This is most likely because these data were first collected in 1974-75 and were therefore least accurate for that year.

The total dollar amount has increased steadily over these years although at a slowing rate. The emphasis has apparently changed though with the greatest increases occurring in the "Grants" category.

Instructions for OCR 4000B3
Financial Assistance to Students in Institutions of
Higher Education

Scope of Reporting Form

OCR 4000B3 is designed to collect data concerning the race/ethnic identification and sex of students applying for financial assistance; granted such assistance; and the amount of the financial assistance. The report covers full- and part-time students and includes all financial assistance regardless of whether a reporting institution actually makes the awards and loans or only administers them. The time period covered is the 1977-78 fiscal year.

Race/Ethnic Identification

An individual is reported in the minority group to which he appears to belong; is regarded in the community as belonging; or categorizes himself as belonging. The race/ethnic designations used in this report do not denote scientific definitions of anthropological origins. Only the specified minority categories need to be reported. American Indian or Alaskan Native is for reporting persons having origins in any of the original peoples of North America. Asian or Pacific Islander is for reporting persons having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This includes, for example, China, India, Japan, Korea, the Philippine Islands, and American Samoa. Black (not of Hispanic Origin) is for reporting persons having origins in any of the black racial groups of Africa. Hispanic is for reporting persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. White (not of Hispanic Origin) is for reporting persons having origins in any of the original peoples of Europe, North Africa, or the Middle East. Resident aliens are reported in the appropriate ethnic categories along with citizens of the United States; non-resident aliens are reported separately.

Unduplicated Number of Recipients

This is the sum of all persons receiving aid from one or more of the assistance programs. In computing this figure, each recipient is counted only once, even if he received assistance from more than one aid program in a category (e.g., BEOG and an Institutional Grant) and/or from more than one aid category (e.g., a grant and a loan). The unduplicated count requested totals the number of unduplicated recipients for all categories of aid. This count may not be equal to the sum of the unduplicated recipients in the four assistance categories because some students may have received aid from more than one category.

Grants

This category of financial assistance includes awards that are made outright (require no repayment in service or cash). Any type of tuition waivers or remissions for students represents a type of financial assistance and are included in the Grants category. Scholarships (awards based on skills and/or academic attainment) are not reported in this category. The various types of grants are:

BEOG (Basic Educational Opportunity Grants). Federally funded direct student grants authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards should be consistent with the data reported by the institution in the BEOG Fiscal Operations Report.

SEOG (Supplemental Educational Opportunity Grants). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the SEOG Fiscal Operations Report, OE Form 1152.1.

VOCATIONAL REHABILITATION. Authorized in the Rehabilitation Act of 1973 (P.L. 93-112), with matched Federal/State funding.

STATE AND LOCAL. Includes all State and Local government grants (e.g., Florida Assistance Grant) but does not include those funds allocated by the State to the institutions.

PRIVATE SOURCES. Includes any non-government source which provides for grants.

INSTITUTIONAL GRANTS. Includes those grant awards provided entirely by the reporting institution.

TUITION WAIVERS. Includes all types of tuition waivers and remissions to students enrolled at the reporting institution.

ALL OTHER GRANTS. Includes all other Federal grants and any type of grant not specifically addressed above.

Loans

This category of financial assistance includes loans that require repayment. The category has two sub-categories: Repayable by Cash Only; and Repayable by Cash or Service (or both). The various types of loans are:

NDSL (National Direct Student Loans). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the NDSL Fiscal Operations Report, OE Form 1152.1.

FEDERALLY INSURED STUDENT LOANS. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. This is an area of financial assistance where a direct loan from a lending institution to a student may not be recorded by the reporting institution; however, all known Federally insured loans are to be reported.

STATE INSURED LOANS. Authorized under Title IV of the Higher Education Act of 1965, as amended.

INSTITUTIONAL LOANS - REPAYABLE BY CASH ONLY. Includes those loans provided by the reporting institution that only can be repaid by cash.

LOANS THROUGH PRIVATE SOURCES - REPAYABLE BY CASH ONLY. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash only.

ALL OTHER LOANS - REPAYABLE BY CASH ONLY. Includes all other types of loans, repayable by cash only, which are not specifically addressed in categories above.

INSTITUTIONAL LOANS - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by the reporting institution that may be repaid by cash or by service.

PRIVATE SOURCES - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash or service.

ALL OTHER LOANS - REPAYABLE BY CASH OR SERVICE. Includes all other types of loans repayable by cash or service which are specifically addressed above.

Scholarships

This category of financial assistance includes awards to students which are outright (require no repayment in service or cash) and which are based on skills and academic attainments to determine recipients.

Student Employment

This category of financial assistance includes student employment work opportunities such as the College Work/Study Program, Student Assistantships, or any other type of student employment at the institution. These types of work programs are:

FEDERAL PROGRAM - COLLEGE WORK/STUDY. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the College Work/Study Fiscal Operations Report OR Form 1152.1.

INSTITUTIONAL STUDENT EMPLOYMENT. Includes the student earnings from the reporting institution's own employment program. Employment may be on or off campus.

ALL OTHER STUDENT WORK/STUDY. Includes all other types of work/study programs that are not financed by the Federal College Work/Study Program.
